Message from the President

Osamu Onodera

President

68th Annual Meeting of the Japanese Society of Neurology
Executive Director and Vice President, Niigata University
Professor and Chair, Department of Neurology,
Brain Research Institute, Niigata University, Japan

It is my great pleasure to invite you to the 68th Annual Meeting of the Japanese Society of Neurology, to be held in Niigata, Japan, in May 2027.

Under the theme, “Beyond Symptoms: Opening the Way to Whole-Person Neurological Care through Dialogue, Co-Creation, and Empathy,” the meeting will explore how advances in genomics, neuroimaging, digital technologies, and disease-modifying therapies can be integrated with careful attention to each patient’s lived experience.

Through the three perspectives of Share, Connect, and Open, we hope to create an active forum for scientific exchange, international collaboration, and new ideas for the future of neurology.

Niigata, situated between the Sea of Japan and beautiful mountains, is renowned for its fresh seafood, excellent rice, sake, rich culture, and warm hospitality.

May is one of the most pleasant seasons to visit Japan.

We sincerely look forward to welcoming you to Niigata for an inspiring scientific meeting and a memorable experience in Japan.

CALL FOR PAPERS

The Japanese Society of Neurology invites abstract submissions for the 68th Annual Meeting of JSN. Please submit abstracts online at <http://www.neurology-jp.org/neuro2027/en/>. The submission will open from September 1 to October 26 (Japan Standard Time). We welcome submissions of abstracts from overseas and foreign students in Japan.

TRAVEL GRANT

The 68th Annual Meeting of the Japanese Society of Neurology offers Travel Grants. The Japanese Society of Neurology encourages neurologists in other countries to submit abstracts on clinical studies or basic research for oral and poster presentations. If Travel Grant is awarded, part of travel expenses will be covered by the Society. Details will be announced on the website soon at <http://www.neurology-jp.org/neuro2027/en/>.
